PROJECTS

Personal Portfolio Website
- Orchestrated a responsive frontend using ReactJS, Tailwind CSS, and Three.js to showcase skills in a dynamic 3D experience.
- Powered interactive elements with Node.js and Express.js on the backend.
- Animated transitions and playful interactions keep users mesmerized.
- Optimized the website for lightning-fast performance and flawless mobile responsiveness.
- Adhered to coding best practices and maintained code quality.
- Deployed the website to a cloud platform, resulting in 99.99% uptime.

Expense Tracker App
- Masterminded a full-stack expense tracking app using ReactJS, NodeJS, ExpressJS, and MongoDB
- Unveiled spending patterns through real-time data visualization with captivating charts and graphs.
- Empowered users with budgeting tools, goal setting, and comprehensive reports.
- Implemented user authentication using Bcrypt
- Boosted API security with lightweight and efficient JWT tokens for enhanced performance.
- Built a rock-solid API with NodeJS and ExpressJS to manage user data, transactions, and reports.
- Delivered consistent experiences across all devices, from desktops to mobiles, with a responsive design powered by media queries and grids.
